# Presentation Overview

- 1 Introduction
- 2 Technical
- 3 Ethical
- 4 Conclusion

# AI-generated images

- Significant advancements in recent years
- Realistic and high-quality images → almost indistinguishable from human-created images
- example Dall-E 2 by OpenAI [1]

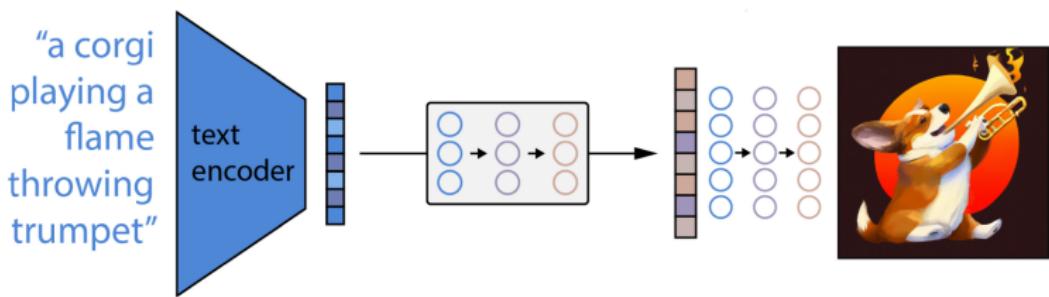

# Dall-E 2 generated images examples

(a) A tapir with the texture of an accordion [2]

(b) Illustration of a baby hedgehog in a christmas sweater walking a dog [2]

# High level abstraction of image generation process of DALL-E 2

High-level overview of operating principle of DallE-2 [modified from [3]]

# Contrastive Language-Image Pre-training (CLIP)

# Let's look at some problems

# First of all: It's not all bad...

- Efficiency and Scalability
- Cost-Effectiveness
- No drawing or computer skills required

# Portrayal of socially unacceptable or mildly illegal actions

- examples: children smoking, bullying, ...
- 

A child smoking a cigarette

# Artists taking credit for AI-generated content

"Théâtre D'opéra Spatial", Winner of the blue ribbon in the fair's contest for emerging digital artists by Colorado State Fair's annual art competition

# Portrayal of Racism / Misogyny / Hateful Content / Extreme Violence

# Pornography

- Child pornography
- Unstable Diffusion: Model targeted specifically at porn generation
- **Big risk**, but also a chance for a controversial industry?

# Deception, political propaganda and extremism

- lowers the barriers to entry significantly!
-

Jan 6. U.S. Capitol insurrection video game art generated by MidJourneyAI, modified from

# A LOT of potential for misuse!

- Highly realistic images of individuals without their consent
- Portrayal of socially unacceptable actions:
  - Violence
  - (Child) pornography
  - Racism
  - Artists taking credit for AI-work(?)
  - ...

# What is currently being done?

- no official regulations
- "every man for himself"

# Visualization: some guidelines are strict, some are not

**Do not attempt to create, upload, or share images that are not G-rated or that could cause harm.**

- **Hate:** hateful symbols, negative stereotypes, comparing certain groups to animals/objects, or otherwise expressing or promoting hate based on identity.
- **Harassment:** mocking, threatening, or bullying an individual.
- **Violence:** violent acts and the suffering or humiliation of others.
- **Self-harm:** suicide, cutting, eating disorders, and other attempts at harming oneself.
- **Sexual:** nudity, sexual acts, sexual services, or content otherwise meant to arouse sexual excitement.
- **Shocking:** bodily fluids, obscene gestures, or other profane subjects that may shock or disgust.
- **Illegal activity:** drug use, theft, vandalism, and other illegal activities.
- **Deception:** major conspiracies or events related to major ongoing geopolitical events.
- **Political:** politicians, ballot-boxes, protests, or other content that may be used to influence the political process or to campaign.
- **Public and personal health:** the treatment, prevention, diagnosis, or transmission of diseases, or people experiencing health ailments.
- **Spam:** unsolicited bulk content.

**Don't mislead your audience about AI involvement.**

- When sharing your work, we encourage you to proactively disclose AI involvement in your work.
- You may remove the DALL-E signature if you wish, but you may not mislead others about the nature of the work. For example, you may not tell people that the work was entirely human generated or that the work is an unaltered photograph of a real event.

**Respect the rights of others.**

- Do not upload images of people without their consent.
- Do not upload images to which you do not hold appropriate usage rights.
- Do not create images of public figures.

1. Be kind and respect each other and staff. Do not create images or use text prompts that are inherently disrespectful, aggressive, or otherwise abusive. Violence or harassment of any kind will not be tolerated.
2. No adult content or gore. Please avoid making visually shocking or disturbing content. We will block some text inputs automatically.

**Excerpt from the Community Guidelines of MidJourney Inc's MidjourneyAI**

# What could be done?

# What could be done?

- Watermarks / Clear labeling of AI-generated images
- Content filters

Manipulating an immoral image by localizing immoral visual attributes and manipulating them into a morally-satisfying alternative.

# What could be done?

- Restrict who can access models ("driver's license")
- Impose strict limit on training data -¿ "mischief models"
- Establish legal liability for misuse
